1. Identification

**Product identifier**
AxTrap 4003

**Other means of identification**
G1001XL

**Recommended use**
Hydrogen sulfide removal from gases

**Recommended restrictions**
None known.

**General Description**
Proprietary dry granular filtration media used for selective removal of hydrogen sulfide. Mixed iron oxides on natural zeolite.

2. Hazard(s) identification

**Physical hazards**
Not classified.

**Health hazards**
Not classified.

**Environmental hazards**
Not classified.

**OSHA defined hazards**
Not classified.

**Label elements**

**Hazard symbol**
None.

**Signal word**
None.

**Hazard statement**
The mixture does not meet the criteria for classification.

**Precautionary statement**

**Prevention**
Observe good industrial hygiene practices.

**Response**
Wash hands and clothing after handling.

**Storage**
Store away from incompatible materials.

**Disposal requirement**
Dispose of waste and residues in accordance with local authority.

**Hazard(s) not otherwise classified (HNOC)**
None known.

3. Composition / information on ingredients

**Mixtures**

4. First-aid measures

**Inhalation**
Move to fresh air. Get medical attention of irritation develops and persists.

**Skin contact**
Wash off with soap and water. Get medical attention if irritation develops and persists.

**Eye contact**
Rinse with water. Get medical attention if irritation develops and persists.

**Ingestion**
Rinse mouth, drink plenty of water. Do not induce vomiting. Get medical attention.

Direct contact with eyes may cause temporary irritation.
5. Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (C02).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed. Prevent contaminated water from discharge to environment.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting equipment/instructions
Move containers from fire area if you can do so without risk.

Specific methods
Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards
No unusual fire or explosion hazards noted. Decomposition products may include iron oxides at high temperatures.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Environmental precautions
Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage

Precautions for safe handling
Avoid prolonged exposure. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

8. Exposure controls / personal protection

Occupational exposure limits

| US. OSHA Table Z-1 Limits for Air Contaminants | (29 CFR 1910.1000) |
| Components | Type | Value | Form |
| Iron Oxides | PEL | 5 mg/m³ | Fume. |
| Iron Oxides | TWA | 15 mg/m³ | Dust: Total |

| US. ACGIH Threshold Limit Values |
| Components | Type | Value | Form |
| Iron Oxides | TWA | 5 mg/m³ | Respirable fraction. |

| US. NIOSH: Pocket Guide to Chemical Hazards |
| Components | Type | Value | Form |
| Iron Oxides | TWA | 500 mg/m³ | Dust and fume. |

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Individual protection measures, such as personal protective equipment

Eye/face protection
Wear safety glasses with side shields (or goggles).
Skin protection
Hand protection
Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.

Other
Respiratory protection
Wear suitable protective clothing.

In case of insufficient ventilation, wear suitable respiratory equipment, NIOSH-MSHA approved, N95 or better rated respirators are recommended along with user training, repair/cleaning, and fit testing.

Thermal hazards
Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. Physical and chemical properties

Appearance
   Physical state  Solid
   Form           Granular
   Color          RED/BROWN/BLACK
Odor            ODORLESS
Odor threshold  Not available.
PH              Not available.
Melting point/freezing point
   2120 °C estimated
Initial boiling point and boiling range
   2258.39 °C estimated
Flash point      Not available.
Evaporation rate Not available.
Flammability (solid, gas) Not applicable.
Upper/lower flammability or explosive limits
Flammability limit - lower (%) Not available.
Flammability limit – upper (%) Not available.
Explosive limit - lower (%) Not available.
Explosive limit - upper (%) Not available.

Vapor pressure 0.15 hPa estimated
Vapor density  Not available.
Relative density Not available.
Solubility(ies)
Solubility (water) Not available.
Partition coefficient (n-octanol/water) Not available.
Auto-ignition temperature Not available.
Decomposition temperature Not available.
Viscosity       Not available.

Other information
Density  10 lbs./gal. estimated
Explosive properties Not explosive.
Oxidizing properties Not oxidizing.
Percent volatile  10 % estimated
Specific gravity  1.2 estimated

10. Stability and reactivity
Reactivity
The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability
Material is stable under normal conditions.
Possibility of hazardous reactions
No dangerous reaction known under conditions of normal use.
Conditions to avoid
Incompatible materials
Hazardous decomposition products

Contact with incompatible materials.
Strong oxidizing agents,
No hazardous decomposition products are known.

11. Toxicological information
Information on likely routes of exposure
Inhalation
Skin contact
Eye contact
Ingestion
Prolonged inhalation may be harmful.
No adverse effects due to skin contact are expected.
Direct contact with eyes may cause temporary irritation.
Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics

Information on toxicological effect
Acute toxicity
Skin corrosion/irritation
Serious eye damage/eye irritation
Not available as mixture.
Prolonged skin contact may cause temporary irritation.
Direct contact with eyes may cause temporary irritation,
Respiratory or skin sensitization
Respiratory sensitization
Skin sensitization
Not a respiratory sensitizer.
This product is not expected to cause skin sensitization.
Germ cell mutagenicity
Carcinogenicity
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
IARC Monographs. Overall Evaluation of Carcinogenicity
Not classifiable as to carcinogenicity to humans.
OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.
Reproductive toxicity
Specific target organ toxicity - single exposure
Specific target organ toxicity - repeated exposure
Aspiration hazard
Chronic effects
Not expected to cause reproductive or developmental effects.
Not classified.
Not classified.
Not an aspiration hazard.
Prolonged inhalation may be harmful.
Further information
This product has no known adverse effect on human health handled appropriately.

12. Ecological information
Ecotoxicity
Persistence and degradability
Bioaccumulative potential
Mobility in soil
Other adverse effects
The product is not classified as environmentally hazardous. However this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
No data is available on the degradability of this mixture.
No evidence to indicate significant bioaccumulative potential.
No evidence to indicate significant mobility in soil.
No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal considerations
Disposal instructions
Local disposal regulations
Hazardous waste code
Waste from residues / unused products
Collect and reclaim or dispose in sealed containers at licensed waste disposal site,
Dispose in accordance with all applicable regulations.
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Material name: AxTrap 4003  SDS US
Version#: 04  Issue date: 06-01-2016

Contaminated packaging  Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14. Transport information
DOT  Shipping Description: Not regulated for transportation by DOT, TDG, IMDG, ICAO/IATA.
Canada TDG Shipping Description: Not Regulated
UN PIN NO: Not Regulated.
IMDG Shipping Description: Not Regulated.
ICAO/IATA Shipping Description: Not Regulated.

15. Regulatory information
US federal regulations  One or more components are listed on TSCA.
This product or its components are not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification  (40 CFR 707, Subpt. D)
Not regulated. Notification not required.
CERCLA Hazardous Substance List  (40 CFR 302.4)
Not regulated.
SARA 304 Emergency release notification
Not regulated.
OSHA Specifically Regulated Substances  (29 CFR 1910.1001-1050)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)
Hazard categories
Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

SARA 302
Not regulated.

SARA 301/312 Hazardous chemical
No

SARA 313 (TRI reporting)
No

Other federal regulations
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List
Not regulated.
Clean Air Act (CAA) Section 112(r) Accidental Release Prevention  (40 CFR 68.130)
Not regulated.
Safe Drinking Water Act (SDWA)
Not regulated.
USFDA – Primary components are listed as Generally Regarded as Safe (GRAS).

US State Regulations
US. California Controlled Substances. CA Department of Justice (California Health and Safety Code Section 11100)
No.
US. Massachusetts RTK - Substance List
TRADE SECRET (CAS Proprietary)
US. New Jersey Worker and Community Right-to-Know Act
TRADE SECRET (CAS Proprietary)
US. Pennsylvania Worker and Community Right-to-Know Law
TRADE SECRET (CAS Proprietary)
US. Rhode Island RTK
Not regulated.

US. California Proposition 65
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.
